

KETIV

Let's build better products.

CHOOSE WISELY. CHOOSE KETIV.

KETIV is a business consulting firm. We help engineers and designers achieve optimum creativity, efficiency, response times, and teamwork with our proven approach. We add value through programs and partnerships that deliver useful information and insights for users, managers, and owners.

For more than 30 years our commitment to the community of engineering and design professionals has been expressed in many forms. We have become the powerhouse Autodesk VAR serving the Pacific Northwest, California, and the Southwest.

As our business has matured we've expanded our depth to meet the diverse needs of a growing clientele. We are passionate about manufacturing. Our consulting in plant design and civil engineering contributes greatly to clients in that field. Architecture, Engineering, and Construction professionals call on us for help with Business Industry Modeling and more. And in the burgeoning realm of clean technologies, we are instrumental in helping companies achieve remarkable success.

Our dedication to the communities we serve—sharing freely and offering programs and services that distinguish us—are hallmarks of KETIV Full Circle Service.

Full Circle Service
TRAINING · SUPPORT · CONSULTING

KETIV Delivers Value

- Annually we host the **KETIV Autodesk Manufacturing Academy** with courses earning high marks for relevancy, ease of understanding, and immediate utility.
- Our certified experts teach in well-equipped classrooms in our **Authorized Training Center**.
- Our **KETIV Techcasts** offer intensive assistance free to subscription customers.
- Lose a trained engineer within 3 months of training completion and KETIV will train the replacement at no charge through our **Assurance Program**.
- Contract design, engineering, and analysis services are available from our expert staff.
- We offer 3D data creation services.

KETIV Shares Freely

- Our informative websites are brimming with useful content.
- We provide training, and placement assistance to out of work designers and engineers that qualify for free software through the **Autodesk Assistance Program**.
- Through **KETIV AMA Online**, users enjoy anytime access to technical papers, videos, and more from our nationally recognized team of application engineers.
- KETIV webinars, newsletters, tech tips, and personal presentations at regional and national events transfer knowledge on a variety of topics.

KETIV is on the Move

- Measuring quality for continuous improvement, we inspire staff to perform well.
- Availability and access are touchstones of our service model, providing focused attention through our growing network of offices.
- We are adding to our staff of seasoned, award-winning application engineers and sales consultants.
- One reason we serve 90% of California firms in the **Autodesk Clean Tech Partner Program** is that we partner with clients to achieve their results.

When you choose KETIV, you choose a complete business solution. Call us today at **866.465.3848**. Tell us your needs and let us put our resources to work for you.
