

Don't go halfway. KETIV TRAINING

Autodesk's® Digital Prototyping applications provide affordable and scalable tools that will help you design, visualize, and simulate your product designs.

Autodesk solutions take you to a new world of technology, a place where you can achieve optimum results in design and product development. And just as a pilot or an athlete relies on trained professionals to reach their performance goals, our Autodesk Certified Experts will coach you, show you tips and tricks, and impart to you insights and skills gleaned from years of specialized experience.

KETIV helps our clients get the most from their investment in Autodesk solutions. With full-circle service we help our clients go the distance with personal training, support, and consultation especially tailored for their needs.

As an **Autodesk Authorized Training Center [ATC®]** we're credentialed as part of a global network of professional training providers. Students get high-level, up-to-date instruction to learn new concepts and build their skillset.

“KETIV-U is an excellent training course. I've been working with Autodesk products since I was a junior in high school. I have so much more to learn and I am looking forward to KETIV helping.”

Our Services Help You Do More.

Adding to our ability to implement Autodesk solutions, our training services deliver unparalleled assistance to enhance your business. We are trendsetters in offering a broad array of local resources for all types of clients. And through our network of offices we ensure prompt service attuned to real-world needs.

Learning is ongoing and as your level changes so do your training needs. We're there each step of the way with essentials training, advanced skills, and custom instruction. Providing helpful content, materials, and real-world examples in class, we conduct courses in our fully-equipped classroom or mobile lab. And our web-based training offers a cost-effective alternative.

KETIV is committed to lifelong learning in several ways:

KETIV-U™

ketiv.com/training/ketiv-u

It's easy to say that ongoing education is important. With KETIV-U, we've made it easy to do. Clients enrolled in KETIV-U tell us they're more productive, feel less stressed, and contribute more to their companies.

KETIV-U is our popular year-round training program for the manufacturing community. Classes held once a month cover the gamut of topics users need to be more efficient and confident in their work.

KETIV-U is advanced training presented professionally, yet comfortably, in our Autodesk® Certified Training Center. Led by Autodesk Certified Experts, we provide all the tools you need and you'll leave with a course manual. Attendees enjoy the environment, comparing it to an informative user group meeting.

Some enrollees attend every month. Others pick and choose—the affordable tuition ensures that your return on investment is met even if you can't go to every class. Course fees with annual membership are a fraction of typical tuition.

KETIV-U Program Benefits

- Predictable training—you can plan months ahead
- A cost-saving annual membership
- Maximized learning through a half-day, seminar-style format
- Wide range of advanced topics taught by Autodesk Inventor Certified Experts

Learn more about our class schedule and call us to see how we can make KETIV-U the secret sauce for getting more from your Autodesk investment.

KETIV Autodesk Manufacturing Academy

ama.ketiv.com

KETIV AMA is one-of-a-kind—and the largest live training day for our manufacturing community. Expert instructors, advanced tools, enthusiastic participants, and incredible learning value come together to make each of the four-course tracks invaluable learning experiences for every attendee.

Our commitment to this event is so strong we've dedicated a website to it, complete with archived courses available online.

KETIV Tech Tips

ketiv.com/support/tech-tips

Our clients love our online tech tips. Actually, everyone takes advantage of this free service from KETIV. Our web metrics tell us it's one of the busiest locations on our website, with people from all over learning better ways to get their work done. Feel free to download any article or forward it to a colleague. You can search by category, product, and author.

Call us at 866.465.3848 today to put the services of KETIV to use in your organization. Get the most from your Autodesk investment.

And go farther with help from KETIV.
